Certificate and Transcript Not Showing in Account

Technical/Computer Issues · https://wineschool.us/help/certificate-and-transcript-not-showing-in-account/

If your grades are posted but your certificate and course completion are not visible in your transcript, it may be due to the ID verification process. Some of the National Wine School's satellite schools follow their own protocols, including **manual ID verification**, which is often completed during final grading.

Until this step is processed by the school you enrolled with, your course may continue to show as "in progress" and the certificate will remain unavailable.
