Courses/Grades Missing from My Student Account

Certification Questions · https://wineschool.us/help/courses-grades-missing-from-student-account/

You may notice that information provided under "Courses & Grades" in your Student Account changes over time. Why?

The "Courses" field displays your current courses. Once you obtain certification, or your access expires, the courses are removed from this section. Grades are viewable for current courses only.

The Transcript section contains all your coursework and certifications earned to date. This is where you can find an electronic copy of your Certificate, as well as the information necessary to verify your credentials.
