Extending Access to a Course

General Questions · https://wineschool.us/help/extending-access-to-a-course/

If your course has expired or been dropped from your account, you’re welcome to purchase an extension whenever you're ready to begin. There’s **no penalty for waiting**, and the **extension cost remains the same** whether the course has recently expired or has been inactive for some time. The only caveat is that you will need to contact us to manually restart your program after you purchase the extension.
