# How do I take a wine exam when the course is online?

Certification Questions · https://wineschool.us/help/how-do-i-take-a-wine-exam-when-the-course-is-online/

This is one of the most frequently asked questions and highlights what sets the National Wine School apart from other programs.

Our academic wine programs are developed in collaboration with experts who have over twenty years of teaching experience. This has allowed us to create a platform that seamlessly replicates the in-person learning experience through proprietary testing materials grounded in the science of wine.

In Levels 2 and 3 you will receive prompts to order specific materials and supplies, including wine, to prepare you for the final exam. The final exam is a timed test that includes both tasting fundamentals and theory questions, taken in the comfort of your own home at a time that suits you.
