In addition to the online materials, are there other study guides you recommend?

Current Online Students · https://wineschool.us/help/in-addition-to-the-online-materials-are-there-other-study-guides-you-recommend/

No, most wine guides are geared towards consumers and may not contain the most current information. Additionally, study guides from other wine programs do not align with our teaching approach and priorities. We recommend refraining from purchasing additional texts until after you complete our courses. Our curriculum includes plenty of material for you to learn!
