Missing Courses or Certificates in Your Student Account

Certifications and Credentials · https://wineschool.us/help/missing-courses-or-certificates-in-your-student-account/

If a completed course or certificate—such as Level 1—is missing from your student profile at the National Wine School, it's most likely due to how course data is displayed in the "Courses & Grades" section. Once a course is completed or your access expires, it is removed from the “Courses” field. However, your achievements remain permanently recorded in the “Transcript” section, which includes digital copies of certificates and verification of credentials.
