Password Reset Notification and Login Issues

Technical/Computer Issues · https://wineschool.us/help/password-reset-notification-and-login-issues/

If you received unexpected emails about your password being reset and are now unable to log into your account, it may be due to a routine security check by the National Wine School. As part of these checks, if a weak or potentially compromised password is detected, the system may require you to create a new one to protect your account.

To regain access, please use the “Forgot Password” link on the login page to set a new password.
