Program Compliance and Integration Standards

Professors · https://wineschool.us/help/program-compliance-and-integration-standards/

The National Wine School provides comprehensive compliance documentation to support integration with academic institutions. These include WCAG 2.1 Level AA Accessibility Reports (VPATs), SCORM compliance for LMS integration (Canvas, Blackboard, Moodle, etc.), FERPA-aligned data privacy policies, and alignment with ANSI/ASTM standards for certificate programs. All certifications are non-credit, vocational in nature, and legally recognized under Vermont law.

Our courses are designed to meet the instructional, legal, and technical standards expected in higher education. Accessibility is validated through manual testing and screen reader audits; LMS interoperability is ensured through SCORM 1.2 and 2004 compliance. Privacy, equity, and intellectual property policies are clearly documented and updated regularly.

All compliance materials are available at:
