What Is the Wine Educators Access Program (WEAP)?

Professors · https://wineschool.us/help/what-is-the-wine-educators-access-program-weap/

The Wine Educators Access Program (WEAP) is a subscription-based system designed to give instructors, universities, and wine schools affordable access to the National Wine School’s (NWS) certification programs. Through WEAP, educators can incorporate professionally recognized wine courses into their curriculum at a fraction of the cost of European programs.

WEAP members gain access to a user-friendly platform that includes course materials, exams, videos, and certification tracking tools. The program supports in-person, hybrid, and online instruction and offers full integration into hospitality, culinary, and beverage management programs.
