What platform do you use?

Technical/Computer Issues · https://wineschool.us/help/what-platform-do-you-use/

We use a proprietary system based on LAMP protocols leveraged with the Cloudflare Application Security Portfolio. This means you need a modern browser like Chrome and a computer with up-to-date security to take our courses. We also advise having a computer that can run any major operating system and was preferably built within the last eight years.
